

What is claimed is:

1. A golf bag comprises:

a bag body, wherein the bag body has an inner storage rack which comprises a top frame, a middle frame, a bottom frame, a plurality of support rod provided between the top frame and the middle frame and a joint block for stably coupling the middle frame and the bottom frame;

a tilting device, wherein the tilting device comprises a fixed leg and a pair of steel wires extending therefrom, the fixed leg having a moveable shank therein, a notch formed in the upper portion of the moveable shank and a support feet formed at the lower portion thereof to push the moveable shank to move up and down relative to the fixed leg; and

a support bracket; wherein

the middle frame having a Σ -shaped frame which can disengage with the notch through the push of the moveable shank.

2. The golf bag as claimed in claim 1, wherein the bottom frame has a flat bottom surface and there is a distance from the support foot to a bottom surface of the bottom frame.

3. The golf bag as claimed in claim 2, wherein the Σ -shaped frame comprises an upper edge and a lower edge, and the Σ -shaped frame clasps the notch through the upper edge thereof.

4. The golf bag as claimed in claim 3, wherein the upper edge is released from the notch by using the moveable shank to push the bottom edge.

5. The golf bag as claimed in claim 4, wherein the top frame has a pivot, and the support bracket is provided with two feet which are linked with the top frame by a pivot.

6. The golf bag as claimed in claim 5, wherein each of the two feet also has another pivot in middle thereof, and through the pivots the steel wires connect with the support bracket.

7. The golf bag as claimed in claim 5, wherein the bottom frame also connects with the fixed leg by an additional pivot, and the Σ -shaped frame and the notch are positioned face to face.

8. The golf bag as claimed in claim 5, wherein the bag body further includes an outer wrappage to enclose the storage rack.

9. The golf bag as claimed in claim 5, wherein a decorative cover is mounted on the outer wrappage.
